SUMMARY

Creative producer building immersive experiences across brand, product, and space.

Background in engineering, with a focus on bringing ideas to life through storytelling, design, and production.

EDUCATION

University of California, Berkeley, Berkeley, CA

May 2023

Bachelor of Arts, Data Science / Computer Science

Film Production Coursework (in progress)

EXPERIENCE

mamī matcha, San Francisco, CA

Feb. 2025 - Present

Founder, Creative Producer

- Conceptualized and produced a series of immersive, community-driven pop-ups (30–100 attendees), iterating on format and experience design across events, and designing each experience end-to-end from spatial flow and menu to visual identity and content
- Built a brand centered on storytelling and connection, creating environments where physical space, product, and narrative work together as one
- Led production across all touchpoints including event design, vendor coordination, content creation, and on-site execution

ServiceNow, Santa Clara, CA

Software Engineer, Cloud Infrastructure & Platform Services DevOps team

Sep. 2023 - Present

- Designed and implemented systems to improve server provisioning workflows, increasing efficiency and scalability across infrastructure operations
- Built internal tools and UI components that improved data visibility and interaction across engineering teams
- Contributed to the end-to-end deployment of 100+ racks, supporting large-scale infrastructure execution through automation and debugging

Software Engineer Intern, Cloud Engineering Automation team

May - Aug. 2022

Systems Engineer Intern, Clone Automation team

Jun. - Aug. 2021

Mooshie Co., Newark, CA

Jan. 2021 - Aug. 2022

Founder, Product Designer

- Designed and developed a plush toy brand, translating original concepts into physical products
- Led end-to-end production from ideation to manufacturing, working directly with suppliers
- Launched products through a direct-to-consumer model, reaching 400+ customers globally

Cham Studio, Newark, CA

Apr. 2020 - Aug. 2022

Founder, Curator

- Built and curated an online vintage fashion studio rooted in personal taste, selecting, styling, and photographing pieces to create a cohesive visual identity
- Generated \$30,000+ in revenue within 6 months with an average 118% return on capital through a self-managed e-commerce platform
- Grew an engaged audience of 5,000+ through storytelling-driven content and consistent visual direction

Evertio, Inc., Castro Valley, CA

Sep. - Dec. 2020

Software Engineer Intern

Stanford University Qin Lab, Stanford, CA

Jun. - Aug. 2017, Jun. - Aug. 2018

Data Programming Intern in the Qin Lab, Department of Chemical Engineering

SKILLS

Creative/Production: Creative Direction, Experiential Production, Visual Storytelling, End-to-End Execution

Technical: JavaScript, Python, SQL, HTML/CSS

Tools: Figma, DaVinci Resolve, CapCut, Notion, Excel, AWS
